

Habitat for Humanity helps individuals and families achieve **strength, stability and self-reliance through affordable homeownership.**

As active participants in building a better future for themselves and their families, **qualified Habitat homebuyers are...**

## in need of better housing

Potential homebuyers might be dealing with poorly maintained, unhealthy or overcrowded housing; unaffordable rent; inaccessible housing for people living with disabilities; or have other shelter needs.

## willing to partner with Habitat

Habitat homebuyers put in hundreds of hours of “sweat equity” helping build their own home and the homes of others in the program. This also includes classes in personal finances, home maintenance and other homeownership topics.

## able to make affordable mortgage payments

Habitat offers homebuyers an affordable homeownership opportunity. Their mortgage payments cycle back into the local Habitat for Humanity to help build more affordable houses.

### Habitat for Humanity also...

Partners with Indigenous communities to improve housing conditions on and off reserve

Brings communities together to build stronger families, and stronger neighbourhoods

Supports the development and implementation of a national housing strategy

Offers youth volunteering, trade skills and construction training opportunities

Accepts and re-sells donated household materials through over 100 ReStores

Mobilizes funds and volunteers for international builds and home repairs
